I, Thurman Earl Robinson Jr., submit this sworn narrative to document a multi-year pattern of identity theft, fraud, and property crimes affecting me personally, my family, and my businesses. Between 2014–2025, my personal identifiers, financial accounts, and property were repeatedly compromised. I have not simply “lost” items—rather, I have been the victim of theft and fraud. Over this period, I have had two Social Security cards stolen, along with my California and Georgia identification cards and driver’s licenses, both of my birth certificates, and my Georgia firearm license and registered firearm, which is now missing. In addition, while traveling through South Carolina on my way to Virginia State University homecoming, I was robbed, further compounding the loss of property and exposure of my personal identifiers. These incidents connect directly to the broader pattern of identity theft already documented in my FTC affidavit and Master Police Report. My compromised identifiers have been used to:• Open fraudulent accounts and loans;• Drain legitimate accounts through unauthorized transfers;• Block or delay dispute channels;• Intercept government mail, including EBT cards and tax letters;• Damage my credit and block housing, business, and educational opportunities. The theft of my Social Security cards, IDs, driver’s licenses, firearm, and birth certificates, combined with the robbery in South Carolina, created cascading harm that continues to this day. These crimes are not isolated—they are part of a continuous chain of exploitation and retaliation across multiple states and industries. I respectfully request that this report be assigned an incident number, that referrals be made to the appropriate investigative units, and that subpoenas be issued for financial, digital, and law-enforcement records as outlined in my supporting affidavit and exhibits./s/ Thurman Earl Robinson Jr. CEO & President, APPS HOLDINGS WY, INC.
